President Butler,  
Columbia University,  
New York.

Dear President Butler:

I was greatly interested in reading yesterday in "The New York Times" an outline of a Report on "The Relation of Universities to Industry" made by Dean Goetze to yourself. It is a subject that we are talking a good deal about just at present and if you can let me have a copy of the report I shall esteem it a great favour.

With kind regards, I am,

Yours sincerely,

President.
